

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

Organ Donor (30)

The urgent need for organ transplants grows daily with more than one hundred fourteen thousand people nationally and over two thousand people in Alabama anxiously waiting for a donor. A choice to become an organ donor can make a life-saving difference.

For more information about how you can become an organ donor, or to sign up on-line, visit alabama-organ-center-dot-org. Again, that website is alabama-organ-center-dot-org.
