

Stay Safe While Cleaning 30 Sec PSA

Cleaning and disinfecting are vital these days, but it's important to be mindful of the risk of things like skin and eye irritation, dizziness, nausea, and even breathing issues when we don't use products properly or responsibly.

Routinely cleaning surfaces with soap and water is the easiest way to decrease germs and traces of coronavirus while keeping you, your family, and your pets safe and happy.

For more safe cleaning and disinfecting tips, visit our website at Alabama-Public-Health-dot-gov.
