Initial License Application
To Operate an Independent Clinical Laboratory

Regulations affecting the application for licensure of Independent Clinical Laboratories can be found by clicking the Rules tab or link on the applications page.

Effective October 1, 2020

Any clinical laboratory that meets the definition of an Independent Clinical Laboratory (ICL), including those that perform waived testing only, will be required to obtain the state license for laboratories and follow the rules set forth by the Alabama State Board of Health. The application and fee requirements can be found on this website.

All clinical laboratories that perform testing on human specimens for diagnosis, treatment, or preventive medicine are required to obtain and maintain a Clinical Laboratory Improvement Amendments (CLIA) certificate as required by CMS.

In addition to the information requested within the application, the following must also be submitted:

1. A completed license application and $240 application fee. Application fees are not refundable.

2. Organizational documents such as: Articles of Incorporation, LLC Agreement, Partnership Agreement, or Statement of Sole Proprietorship under which the facility will operate. A copy of the registration to conduct business in Alabama must accompany this application if the entity was established in a state other than Alabama.

3. Qualifications and licensure information regarding the medical director.

Following review of the application, a copy of the application will be forwarded to the Division of Health Care Facilities, Laboratory Unit. A staff member from the Division of Health Care Facilities Laboratory Unit may contact you regarding an on-site licensure visit to determine if the facility meets minimum requirements for a state license.

*NOTE* Due to workload volume, application review takes a minimum of thirty days. An on-site survey (if required) could add considerable time to completion of the licensure process.
Applications must be submitted well in advance of anticipated start of operations. Applications must be submitted with all required documents and certificates as noted in the instructions before the review can begin.

License Certificates
The earliest date a license can be granted is the first day the complete application and any surveys have been approved by the Department.

Printing of License Certificates
License certificates are now available on-line. When a license is granted or renewed the license certificate can be printed on-line at https://dph1.adph.state.al.us/FacilityCertificatePrint. A facility ID and pin number will be provided and must be used to print license certificates.

Please note: it is a violation of state law to provide independent clinical laboratory services before you are granted a license from this agency. If you have questions regarding your application, please call (334) 206-5175.

Item 1, **Applicant.** The applicant is an individual, partnership, corporation or other entity which will be the governing authority of the facility and to whom the license will be granted (*not the facility name or the individual completing the application, unless the applicant is an individual*). The name entered in this section must be exactly as printed on the legal document establishing the entity. A copy of the legal document must accompany this application. Entities established in a state other than Alabama must register to conduct business in Alabama with the Secretary of State’s Office. A copy of the registration must also accompany this application. If the facility is leased, the lessee should be indicated as the applicant. The lessee may be an individual, partnership, corporation, or other entity. **NOTE - The applicant must be the operator of the facility, the entity that hires or fires the administrator, determines patient care issues, makes payment for facility obligations, etc.**

Item 5, **Laboratory Director:** Credentials or resume for qualified director must be attached to this application.

Governing authorities operating more than one facility may give the facilities they operate similar, but not identical names. The name may be abbreviated if the abbreviation is also used on advertisements, facility letterhead, signs in front of the facility and certification information.
