

NEUROLOGICAL SUPPORT STATEMENT

The commitment of the stroke staff ensures that the members of the neurological staff support the stroke program by their professional activities. This support includes a written commitment acknowledging the neurological staff's knowledge of the application to become a stroke center and willingness to provide care to stroke patients.

This should be signed by the senior neurological staff or by one of the neurosurgeons who will participate in the stroke call.

The neurological staff of _____ hospital is aware of the hospital's application to be a Level _____ Stroke Center and supports that application.
