

Boaz City Schools TOBACCO USE IN SCHOOL

Due to the vast amount of medical evidence which demonstrates the harmful effects of tobacco use as it relates to heart, lung and gum disease and cancers of the lungs, throat, voice box and esophagus; and due to the fact tobacco is often a “gateway” drug which leads to the use of marijuana and other drugs; and due to the harmful effects of secondary smoke on others; and due to the fact that teachers, coaches, bus drivers and other personnel are perceived as role models whom school age children often admire and emulate, the policy concerning the use of the tobacco products will be as follows:
