Tobacco Use by Personnel

PHILOSOPHY – The Board believes that all employees have the right to be in a school environment that promotes, enhances, strives to become, and maintains a drug-free School District.

The Board, in recognition of the high degree of evidence available, views the use of prohibited substances as being detrimental to health as being a significant contributor to mouth, lung, heart, and other diseases. The Board also considers the area of personal health as being a primary objective of education. It is also the belief of the Board that School District employees should, by example, demonstrate to the students they serve their concerns for the dangers inherent in the use of these products.
