

Tobacco Use

The Surgeon General has determined that tobacco smoking and use of other tobacco products is dangerous to one's health. Certified teaching personnel will conduct programs of education designed to make students fully aware of the hazards of smoking and use of tobacco products.

Smoking or possession of smoking materials of any kind by students will not be permitted on school property. Use or possession of any other tobacco products by students will not be permitted on school property.

Violation of this policy shall be handled in accordance with the Student Code of Conduct, and the violator shall be subject to appropriate disciplinary action.

Date Adopted: November 27, 2006

LEGAL REF: The Code of Alabama, 16-8-8, 16-8-9

Use of Tobacco Products on School Property

The use of tobacco products on school property will not be permitted. School personnel violating this policy will be subject to appropriate disciplinary action ranging from a verbal warning to termination of employment.
