

Tuscumbia City Schools

SMOKING/USE OF TOBACCO PRODUCTS

The school, because of the huge amount of evidence available, views smoking and other uses of tobacco and tobacco products as being detrimental to health and a significant contributor to lung, heart, and other associated diseases. The school considers knowledge and understanding of good health practices as being a primary objective of education. Therefore, it is the policy of Deshler High School, and the Tuscumbia City Schools that students shall not be permitted to possess, smoke, or use tobacco products in any form while in school buildings, on school grounds, or in school buses during the school day or in during any school-sponsored activities, or on the way to and from school-sponsored activities. Lighters and matches are also not permitted.
