(1)     A death may be registered by the State Registrar as specified in Code of Alabama 1975, § 22-9A-14, when a death is known to have occurred in this state and the location of the body is known, but the body cannot be physically recovered. (2)     A death may be registered by the State Registrar as a presumptive death as specified in Code of Alabama 1975, § 22-9A-14(g), upon receipt of an order of a court of competent jurisdiction when the court has sufficient evidence to determine that a death actually occurred in this state and the time, place, and circumstances of death, but the body cannot be located.

(a)     The court order to establish a presumptive death certificate shall include all of the following information required to complete the death certificate:

1.     Full name of the decedent;

6.     Marital status and surviving spouse if appropriate; and
7.     The facts of death necessary to complete the medical certification including the cause of death; the manner of death as accident, suicide, homicide, or

natural; and if the death occurred from an injury, information on how and when the injury occurred.

(b) The death certificate prepared by the State Registrar from the information in the court order and all certified copies of that death certificate shall show the date of the order and the name of the court issuing that order and shall be marked "Presumptive."

(3) If the death is registered within one year of the date of death, the death certificate shall be prepared on the current form or in the current format in use at the time of its preparation. #### **420-7-1-.12 Delayed Registration of Death**

(1) Prior to applying for registration of a delayed certificate of death for an individual who died in this state, the applicant must have requested a search for the death certificate and received a statement from the State Registrar that the death is not on file in the Center for Health Statistics.

(2) If a death certificate has not been filed within the time period required in Code of Alabama 1975, § 22-9A-14, it shall be filed as prescribed in Code of Alabama 1975, § 22-9A-15(a)(1).

(3) If the death certificate has not been filed within the time period required in Code of Alabama 1975, § 22-9A-14, and the persons specified in Code of Alabama 1975, § 22-9A-15(a)(1), are not available to sign the death certificate, it may be filed by the next of kin as specified in Code of Alabama 1975, § 22-9A-15(a)(2). The documents required by Code of Alabama 1975, § 22-9A-15(a)(2)b, must be contemporaneous writings from original sources that clearly identify the decedent and his or her date and place of death and contain sufficient information to identify when the documents were created. Such documents may include but are not limited to:

(a) The funeral director, or person acting as such, who intends to disinter a body must file a notice of disinterment with the State Registrar or the local registrar in the county in which the body is buried to indicate that he or she will abide by the Rules and Regulations of the State Board of Health which govern the disinterment, transportation, and disposition of dead human bodies.

(b) The State Registrar or local registrar shall provide a statement to the funeral director, or person acting as such, that the required notice has been filed. The acceptance of the notice by the State Registrar or local registrar does not establish a legal right to disinter a body, but only indicates that the appropriate notice to follow the Rules and Regulations of the State Board of Health has been filed by the person carrying out the disinterment.

(c) The notice shall be filed on a form or in a format established by the State Registrar that includes the name of the decedent, the date of death, the cemetery or location where the decedent is now interred, the place where the decedent will be re-interred, and the name and address of the funeral director, or person acting as such, who is handling the removal of the body.

(d) The notice of disinterment shall be kept by the State Registrar or in the local health department following procedures established by the State Records Commission.

(3) All dead human bodies shipped by common carrier shall be in a sealed container; caskets and coffins containing human remains in a state of decomposition shall remain tightly and permanently closed.

**420-7-1-.16 Amendment or Correction of Birth Certificates**

(1) Birth certificates are presumed to contain accurate information on the facts of birth when they are filed with the Center for Health Statistics. Except to reflect changes in the registrant’s name and/or sex as provided by Code of Alabama 1975, § 22-

9A-19(c) and § 22-9A-19(d), birth certificates will be amended or corrected only to rectify errors in the facts of birth.

(2) A delayed certificate of birth placed on file with supporting documentation or by judicial procedure shall not be amended except to reflect changes in the registrant's name and/or sex as provided by Code of Alabama 1975, § 22-9A-19(c) and § 22-9A-19(d).

(3) Only the following persons may apply to have the facts of birth amended or corrected:

(a) If the registrant is 19 years of age or older or otherwise became emancipated by operation of law, application to amend a birth certificate must be made by the registrant. In the event of a registrant who is incapacitated and unable to make application, the legal guardian of the registrant may make application.

(b) If the registrant is under 19 years of age but over 13 years of age, application to amend a birth certificate may be made by the registrant, a parent of the registrant, or the legal guardian of the registrant.

(c) If the registrant is under 14 years of age, application to amend a birth certificate may be made by a parent of the registrant or the legal guardian of the registrant.

(d) Within one year of the date of birth, application to amend a birth certificate may be made by a representative of the hospital where the birth occurred.

(e) A woman claiming to be the mother of a child under 19 years of age but whose name is not shown on the birth certificate as the mother of that child may apply to have her name added to the birth certificate or to have the birth certificate amended to show the correct name of the mother.

(f) A man claiming to be the father of a child under 19 years of age but whose name is not shown on the birth certificate as the father of that child may apply to have his name added to the birth certificate or to have the birth certificate amended to show the correct name of the father.

(g) A person named on a birth certificate as a parent of the child may apply to have his or her name removed from the birth certificate as a parent of the child after that person has been determined by a court of competent jurisdiction not to be a parent of the child.

(h) Minor corrections to birth certificates may be made at the discretion of the State Registrar without specific application from one of the above.

(4) With the exception of minor corrections, an application to amend or correct a birth certificate must be made in writing by an authorized applicant and must be accompanied by valid identification and any required fee.

(5) Correction of Minor Errors Within One Year of the Date of the Event:

(a) Correction of obvious errors, transposition of letters in words, or additions of omitted information may be made by the State Registrar based upon his or her observation or query.

(b) A notation documenting the source of information for the correction or addition and the date the change was made shall be maintained with the certificate but does not need to appear on certified copies of the certificate.

(c) The certificate does not need to be marked "Amended."

(6) All Other Amendments or Corrections to Birth Certificates:

(a) To amend or correct errors of fact on a birth certificate, documentary evidence must be presented in support of the facts at birth. All documents presented must contain sufficient information to clearly indicate that they pertain to the registrant on the birth certificate for which the correction has been requested.

1. Acceptable documents include, but are not limited to, documents such as:

a. Certified copy of a marriage record;

b. Certified copy of a birth certificate of registrant's child;

c. Early school records;

d. Social Security records;

e. Passports or visas;

f. Military records;

h. Government agency records for benefit establishment such as social services, Medicaid, clinical services, or similar services;

i. Court orders clearly establishing the facts to be amended;

j. Medical records; or

k. Other documents deemed to be valid and adequate by the State Registrar to support the requested change.

2. Documents presented must be from independent sources. Family documents such as records from bibles or genealogical records are not acceptable.

3. Documents must be in the form of the original record or must be a duly certified copy or excerpt thereof from the original custodian of the record.

4. Only one document of each type may be used in cases where more than one document is required to support the facts.

5. The documents submitted must have been established prior to the registrant's nineteenth birthday or at least ten years prior to the date of application for the amendment or correction. The State Registrar may make exceptions for other documents such as court orders, passports, or other evidence that clearly support the facts of birth.

(b) Amendment or correction of date of birth:

1. The date of birth cannot be changed to a date that is after the date the certificate was filed.

2. The date of birth may be changed up to 30 days within the same calendar year with two supporting documents provided that date is not after the date the certificate was filed.

3. Other changes to the date of birth may be made at the discretion of the State Registrar provided that a minimum of three documents adequately support that the registrant has consistently used the date from childhood and the change does not make the birth date after the date the certificate was filed. The change cannot be made if that change would be in conflict with any birth certificates filed in the Center for Health Statistics for other children of the same mother.

(c) Amendment or correction of registrant's name:

1. Minor misspellings or phonetic spellings of the registrant's name may be corrected with one piece of documentary evidence that supports the correction.

2. If the registrant is over 50 years of age, the first and/or middle names of the registrant as shown on the birth certificate may be corrected to the first and/or middle names the registrant has consistently used since early childhood with a minimum of two documents that support the correction.

3. If the registrant is over 50 years of age, the surname of the registrant as shown on the birth certificate may be corrected to the surname the registrant has

consistently used since early childhood with a minimum of three documents that support the correction.

4. Other corrections to the name of the registrant may be made at the discretion of the State Registrar provided a minimum of three documents adequately support that the registrant has consistently used the name from early childhood.

5. If the registrant has obtained an order from an appropriate court changing his or her name as specified in Code of Alabama 1975, § 22-9A-19(c), the registrant's name on his or her birth certificate shall be amended to show the new name of the registrant as given in the court order. If the order changing a person's name is for a married person who took a different surname at the time of marriage, that surname does not need to be shown on the birth certificate provided the order also shows the surname used at the time of birth.

(d) Addition of registrant's name after the fifth birthday:

1. If the first and middle names are blank:

a. The first and middle names may be added upon presentation of one document established at least ten years ago or prior to the fifth birthday that shows the name of the registrant along with the registrant's date of birth and parents' names.

b. A notation shall be shown on the birth certificate documenting that the names were added and by what authority.

c. The birth certificate does not need to be marked "Amended."

2. If the surname is blank and the surname to be added is the same as the surname of either parent shown on the birth certificate:

a. The surname may be added to be the same as that of either parent shown on the birth certificate upon presentation of one document established at least ten years ago or prior to the fifth birthday that shows the name of the registrant along with the registrant's date of birth and parents' names.

b. A notation shall be shown on the birth certificate documenting that the surname was added and by what authority.

c. The birth certificate does not need to be marked "Amended."

3. If the surname is blank and the surname to be added is not the same as the surname of either parent shown on the birth certificate:

a. The surname may be added to be a surname different from that of either parent shown on the birth certificate upon presentation of two documents as follows:

i. One document established at least ten years ago or prior to the fifth birthday that shows the name of the registrant along with the registrant's date of birth and at least the name of one parent.

ii. One additional document that clearly supports that the registrant has consistently used that surname from early childhood.

b. A notation shall be shown on the birth certificate documenting that the surname was added and by what authority.

c. The certificate shall be marked "Amended."

(e) Amendment to names of parents:

1. Minor misspellings of the names of the parents may be corrected with two pieces of documentary evidence that support the correction.

2. The name of a parent may be corrected if there is adequate documentary evidence showing that the name was entered incorrectly by the person preparing the birth certificate.

a. The name of the mother may be corrected if that correction is supported by adequate documentary evidence showing the name of the mother is being corrected to clearly identify the person who gave birth to the child.

b. The name of the father may be corrected if that correction is supported by adequate documentary evidence showing the name of the father is being corrected to clearly identify the person who has been determined to be the legal father of the child.

3. Except as provided under Code of Alabama 1975, § 22-9A-12, or as previously determined by a court of competent jurisdiction, the name of the father or mother will not be changed to show a different person. If the name of the father or mother listed on the child's existing birth certificate is legally changed after filing of the birth certificate, the name of the father or mother will not be changed on the child's birth certificate to reflect the name change.

(f) Amendment to other items on the birth certificate:

1. Signatures may not be amended.

2. Race of parents has not been on the birth certificate form since 1991. For years prior to 1991, race of parents will not be amended. However, an amended birth certificate may be prepared on the current form to no longer show that item on the birth certificate.

3. Other items on the birth certificate may be amended with adequate documentary evidence to support the amendment. An order from an Alabama circuit

court determining the facts of birth may be used to amend or correct any item except signatures, the date of filing, and the date of birth to a date which is after the date of filing.

2. Changing the marital status and surviving spouse information listed on the death certificate may require additional documentation to demonstrate that an error was made by the funeral home.

(b) If the State Registrar has reason to question the validity or accuracy of the statement, he or she may request additional documentation in support of the facts.

**420-7-1-.24 Format for Provision of Information from the System of Vital Records**

(1) The State Registrar may provide information to government agencies for their official use in the form of electronic files of information. Information contained in the files may only be used by those agencies as specified in any agreement established with those agencies or as specified by law. Those agencies may not re-release the information to others unless the agreement specifically allows them to do so or they are required to do so by law.

(2) The State Registrar may establish or participate in a system to receive requests from and provide information to government agencies and other approved organizations through electronic media. Such systems must contain sufficient safeguards to ensure that the requests are from authorized individuals in the requesting government agency or other approved organization.

(3) Birth certificates filed with the Center for Health Statistics with the first and/or last names indicated to be unknown or left blank may not be issued as certified copies until the names are added to the record through the appropriate process specified elsewhere in these Rules. If the name has not been determined and if the record is needed for a legal purpose or by a government agency, an appropriate notice must be placed in the name field when certified copies are made. If the registrant has died without ever being named, an indication that the registrant was not named shall be placed in the name field prior to issuing any certified copy of the record.

(4) Birth certificates have been filed with the Center for Health Statistics in various formats since 1908. Some formats contained a section on the birth certificate that collected information for medical, statistical, and/or health use and clearly stated that the information was confidential and would not appear on certified copies of the birth record. Such confidential information shall be removed from the birth certificate and shall not appear on any certified copies of these birth certificates. However, that confidential information may be kept in a format designated by the State Registrar such that the information is available for statistical research and public health purposes only.

(5) Information related to vital records such as applications for copies of vital records, evidence used to amend vital records, and other documents related to vital records are considered confidential since they contain information used to identify particular vital records. However, if not elsewhere restricted by Code of Alabama, 1975, and these Rules, copies of such documents may be released to government agencies if needed for official purposes.

(6) Certified copies of Acknowledgments of Paternity required under Code of Alabama 1975, § 26-17-22, to be filed by the State Registrar may be issued in the same manner as certified copies of other vital records with the statement and seal of the State Registrar.

(7) If not elsewhere restricted by the Code of Alabama 1975, and these Rules, copies of documents used to amend vital records or to request other changes to vital records may be released to the registrant, or a parent or guardian of the registrant if the registrant is under 19 years of age, upon written application, valid identification, and payment of a fee required to search for the record. Such copies shall not contain any official certification of the State Registrar.

**420-7-1-.25 Fees.** Fees to be paid to the Center for Health Statistics shall be as set out in Code of Alabama 1975, § 22-9A-23.

(1) The portion of the fee for a search for or a certified copy of every vital record issued in a local registration district that shall be retained in the local office shall be five twelfths (5/12) of the fee set in Code of Alabama 1975, § 22-9A-23(a)(1). The remainder of the fee shall be forwarded to the State Board of Health for operation and maintenance of the vital records system.

(2) The portion of the fee for each additional certified copy of every vital record issued in a local registration district that shall be retained in the local office shall be one half (1/2) of the fee set in Code of Alabama 1975, § 22-9A-23(a)(2). The remainder of the fee shall be forwarded to the State Board of Health for operation and maintenance of the vital records system.

(3) The fee for any request that involves a search for a particular record to locate a requested document such as an Acknowledgment of Paternity, documents filed with a record, or any other documents associated with a record other than a sealed file, shall be at minimum the fee specified in Code of Alabama 1975, § 22-9A-23(a)(1).

(4) The fee for a search that requires opening a sealed file for processing shall be at minimum, the fee specified in Code of Alabama 1975, § 22-9A-23(a)(5).

(5) Appropriate fees for the preparation of statistical research requests shall be determined by the State Registrar but shall, at minimum, cover the cost of staff time for production of the information requested. Additional amounts may be charged to cover the costs of the operation and maintenance of the vital records system used to collect the information provided for the statistical research.

(6) As specified in Code of Alabama 1975, § 22-9A-23(a)(1), fees paid for a search of the records cover the cost for making the search and reporting the findings of that search. Fees for the search are not refundable if a record cannot be located. Instead, an official report of the findings of the search shall be issued in a format determined by the State Registrar.

(7) Unless otherwise specified in the Code of Alabama 1975, and these Rules, fees for special processes such as amendment or correction, new certificate after adoption or parentage determination, delayed certificate, etc. must be paid along with the application for such request and prior to processing such request. Fees paid cover the costs involved for staff time to handle the request and fees are not refundable if the request cannot be completed due to lack of sufficient or adequate documentation as required in the Code of Alabama 1975, and these Rules.

(8) If a court orders an action to be completed to a birth certificate or the law requires an action to be taken to a birth certificate on file in the Center for Health Statistics, that action may be processed prior to receiving the fee for the action. Once the action has been completed, the fee must be paid by the registrant, one of the registrant's parents if the registrant is under 19 years of age, or the legal guardian of the registrant before a certified copy of the record may be issued to any of those individuals.
